FORWARD

Greetings to our old Customers and Friends. To those of you who receive our price list for the first time we want to tell you that we started in the plant growing business 15 years ago. We were growing only what we needed for ourselves but we grew such good plants that there was a demand for them by others so we grew a surplus for our friends and neighbors. Everyone had phenomonal results with our plants and the demand grew; we endeavored to get only the best varieties, adapted to this climate and the fact that they gave satisfaction was not exceptional because we want the best ourselves and we sell you the same kind that we use ourselves. For example take tomatoes; we can buy seed for 10c an ounce, or less, but we get only selected strains and pay, in some cases, for the best Earliana, as high as \$1.25 per ounce. This is one of the reasons for our phenomonal growth to a point where we are growing and shipping plants by the millions annually.

We make a specialty of growing strong, heavily rooted vegetable plants of quality; we buy only the best seed obtainable and you get the advantage of our years of experience in the vegetable growing industry in buying your plants for your home garden at Hillcrest. We raise millions of plants annually and pack them for shipment to reach destination in good condition, 1,000 miles distant. We ship plants all over the U. S. successfully.

Plants are strictly first class in every way, true to name, fresh dug for your order and well hardened; packed in moss to keep them in good condition in transit, carefully labeled and we guarantee you quality and satisfaction. If you are not pleased with the plants we send you, notify us and we will promptly refund your money.

We guarantee safe delivery of plants; if plants arrive in bad order have express agent make note of damage or loss on express receipt; mail this to us and

"OUR BUSINESS IS GROWING"

we will duplicate your order. If you receive plants in bad order by mail have your post master inspect package and advise us of damage or loss and we will duplicate your order.

We exercise great care in propagating our plants, but cannot be responsible for the crop. If you are not satisfied that plants we send you are exactly as we represent them they may be returned and your money will be refunded.

Quotations subject to market changes and previous sale.

All orders filled in rotation.

Special prices on large quantities.

Book your orders early.

Terms: Cash with order. Discounts and usual terms to dealers.

Our Creed—THE GOLDEN RULE.

We can supply good healthy plants of all the varieties listed below in their proper season. Packing charges are included in the prices given. 500 plants at 1000 rate; 50 plants at 100 rate.

SEEDS AND BULBS

GLADIOLUS—Bulbs, fine mixture, doz. \$1.00; 100 \$6.00

DAHLIA Roots, Red, Yellow and White, mixed colors. doz. \$1.25.

BROWN BEAUTY BEANS—The best for baked beans, swells up large and cooks whole, mealy and appetizing; quart, prepaid, 40c.

GOLDEN BANTAM Sweet Corn, good seed, per pound prepaid 20c; bushel not prepaid \$6.00.

GOLDEN BEAUTY Pop Corn, one of the best varieties that we have ever seen; corn pops first season producing mammoth, crisp, golden kernels which look and taste as tho liberally buttered; in great demand by those using corn to pop commercially. Sold only by the packet this season. Large packet postpaid 25c.

HILLCREST SURPRISE TOMATO, a selection of John Baer of decidedly early and prolific characteristics. With us last season it was only a few days later than Earliana and of smooth, round (slightly flattened) meaty type. Our plants averaged a bushel of salable tomatoes to every three plants in the field. Trade packet 50c, postpaid. Twice transplanted plants 25c each. postpaid.
